# CollegeBoard

Calculating college costs, made simple.

College Board Net Price Calculator (NPC) offers quick, affordable, and intuitive set up for institutions and ensures students can easily access college cost information.

Transparent college costs help students make effective enrollment decisions. Support your students with College Board's Net Price Calculator. Our NPC is updated automatically and regularly to reflect the upcoming aid year and is customizable to your institution's needs.

Self-Service for Institutions

Make changes at any time, including adding supplemental questions, all through our easy to use school portal.

Privacy Protection

Our NPC ensures student and family data is protected per federal regulations. No personally identifiable information is collected on the NPC.

Affordable Pricing

Available as a low cost, one-year online subscription for schools — no expensive, long-term contract.

Transparent college costs. **collegeboard.org/npc**

Deliver transparent costs for students and families.

With options to suit a variety of institutional needs, College Board NPC allows you to spend more time with students and less time explaining college costs.

Features to Fit Your Needs

✓ **Easy Promotions**
Designed so institutions can customize and link to institutional pages, such as Schedule a Visit or Request More Information

✓ **Flexible Implementation**
Fits your implementation timeline—set up your NPC all at once or gradually add features at your convenience.

✓ **Custom Questions**
Add questions to your NPC database to collect information unique to your institution

✓ **Trusted Support**
Training materials, webinars, documentation, and support available through our dedicated NPC Resource Center

Connect with us at collegeboard.org/npc

NPC implementation is simple and easy - your calculator is hosted by College Board and your setup module is available online.
