

Simply powerful. Powerfully simple.

A comprehensive software solution automating financial aid processes, reducing the administrative burden of federal compliance with built-in customizable tools.

Financial aid allows students to achieve their goals and institutions to meet their enrollment needs. For over 40 years, College Board has served hundreds of institutions' financial aid management needs, offering proven compliance features to keep institutions on track, robust need analysis for students who need it most, and unmatched customer support.

Easy-to-Use Intuitive Design

Support offices with robust, user-friendly design, fast performance, enhanced features, and powerful reporting.

Seamless Integration

Leverage standard, pre-built integrations with leading campus systems, and integrate with virtually any system with CSV and API integration methods.

Student-Focused Functionality

Engage with multichannel tools, a mobile-first student portal, and paperless document upload.

Let's soar. powerfaids.org

Spend less time processing and more time with students.
